TO MAKE COKE.

Possibility of a Plant to Manufacture Coke in Wheeling.

BY-PRODUCT SYSTEM PEOPLE

Who Promise to Revolutionize the Coke and Gas Making Industries, Have Been Looking Over the Local Field this Week. Something About the New Invention. Another Glass House May Locate Here in the Near Future.

The Intelligencer learns on what is considered very good authority, that the new by-product coke plant people may locate one of their plants in Wheeling in the near future.

The general public is somewhat familiar with the recent invention by which the by-products of coke making are used for a number of purposes, more especially in the saving of gas produced in the manufacture of coke. The invention consists of a new coke oven in which the appliance is used whereby the gas, etc., is saved. Recently arrangements were made at Pittsburgh for the establishment of one of the coke plants near the Edgar Thompson steel works, and it is said to be the intention of the owner of the invention to establish a plant where coke is made in large quantities. During the past week representatives of the company have been in Wheeling in conference with manufacturers. A gentleman who was named in this connection, however, denied any knowledge of the visit of the company's representatives. The Intelligencer's informant says that the company had representatives here, and he is in a position to know.

There can not be a better point at which to establish one of the new coke-making plants. Wheeling consumes a great deal of coke, and by the new system enough gas could be produced at very small expense to supply the needs of the city and the surrounding communities. In addition there are other by-products that can be used. The only hitch is said to be the somewhat heavy freight rate to Wheeling from the Fairmont coke fields, where the coke is made. It is said that if an advantageous freight rate can be obtained the project will probably materialize in the near future.

A gentleman conversant with the coke industry says, however, that he is not in the Connellsville coke region alone to supply gas for all the cities of the United States. By the new system all this vast waste will be avoided.

Mr. James Lippincott, of Alexandria, Ind., a well known glass manufacturer, has been in the city the past few days, looking about for a suitable location for a glass house. Mr. Lippincott says that he is weary of chasing all over the Indiana gas belt in an endeavor to discover a site where enough natural gas can be obtained to give his factory a steady supply of fuel. He has concluded to come back to a location in some proximity to the city, where he can get the gas by pipe, and he is in conference with President Hulihen Quarrier, of the Wheeling chamber of commerce, but has not yet decided to come to Wheeling. Yesterday he was in Moundsville and Bellaire, receiving propositions from the commercial bodies of those places. To-day he goes to Huntington, W. Va., whose chamber of commerce is said to be anxious to have Mr. Lippincott take hold of the idea of an enterprise at Connellsville. It is generally hoped that he will decide to come to Wheeling.

POPULAR ENTERTAINMENT

Given Under the Auspices of Wheeling Lodge, A. O. U. W., Last Evening.

The cheerful and handsome headquarters of the Ancient Order of United Workmen last evening contained a large and delighted audience, which listened to a programme of unusual merit. If the other lodges of this organization hope to excel the performance given by Wheeling lodge they will have to scour the city over for eclipsing talent. Mr. W. B. Day was an excellent voice, and besides filling out in a very acceptable manner his own numbers on the programme, he closed the entertainment by taking the place of Mr. Zulauf, who was suffering from a cold. In the duet with Mrs. Frank Stanton both singers gave a very pleasing rendition of "Only Thee." The cornet duet by Mr. Theodore Poller and daughter was one of the gems, while Mr. H. B. Grimm's flute fantasia was an artistic performance on that instrument as was ever heard in Wheeling. Messrs. Frank Nesbitt and Charles S. Brilles more than sustained their reputation as popular reciters.

Mrs. Milton Hanauer made her first public appearance last evening as a soloist, and judging from her success and the cordial reception she met with from the critical portion of the audience, she will become one of the favorites in this city. Her number was "Alta Stella Confidente," with violin obligato by Professor Herman Schockey and Mrs. Henry Horkheimer accompanist.

Miss Lina Hennig in the balcony scene from "Juliet," and "The Confessional" was all that could be demanded by the exacting auditor. Her naturalness, distinct enunciation and vigor of stately business stamps her as one of the most intelligent and enjoyable elocutionists ever heard in this city.

The committee who were responsible for this delightful evening of musical and literary gems was composed of the following members of Wheeling lodge: W. H. Higgins, chairman; H. E. Weisgerber, C. S. Brilles, Frank Stanton, W. R. Westwood and W. B. Day.

IN THE CIRCUIT COURT.

Marple's Suit Against the Intelligencer and Others Virtually Dismissed.

There were two peculiar suits before Judge Paul in the circuit court yesterday, both of them having been brought by Mr. J. C. Marple, of Elm Grove. The first one was against the Intelligencer, for alleged libel. In the bill of complaint no specified injury was recited, the mere allegation being made that the plaintiff had suffered in reputation from certain publications in the Intelligencer. Mr. W. F. Hubbard, as attorney for the Intelligencer, demurred to the complaint's bill, and the demurrer was sustained by Judge Paul. Another suit by Marple against Ohio county, for \$50,000 damages, for alleged grievances in the refusal of a justice of the peace of Elm Grove to consider a complaint brought by Marple, was likewise disposed of. Mr. Bernard Handian representing the county. In the two pleas of Mr. Marple it was almost impossible to discover what he was driving at. He cited no specific offense. He was his own attorney. The decision of Judge Paul virtually disposes of the cases.

Thomas Darkin, a native of Ireland, was granted his second papers of citizenship.

In the case of Louis S. Delaplaine vs. Louis S. Delaplaine's administrator, the edge of the visit of the company's representatives. The Intelligencer's informant says that the company had representatives here, and he is in a position to know.

Before Judge Campbell, in the case of W. H. Delaplaine vs. J. W. Grubb and others, the complainants reply was filed.

In the case of Charles Tappe vs. Laura M. Stingle, a decree was entered confirming the report of the commissioner's sale.
